Mike

Good, Dr. Gunn mentioned this briefly during a recent call. I may give you a call later in the week to catch up.

Ron

Cc: Place, Arletta
Subject: West Lake/Bridgeton Landfill Rad Monitoring

Branden, Chris, Ron, and Jonathan,

In order to address the potential exposure concerns of its residents, St. Louis County Health Department has committed to contract for rad (α , β , γ) monitoring during the construction of the 'North Physical Barrier' (firebreak trench) at West Lake/Bridgeton. The County would like to ensure that the data gathered would be useful to all agencies involved. In that regard, Dr. Gunn (Director of the County Health Department) would like to teleconference with the 4 of you (or your designees) to discuss the details to be included in an RFP for County to use to hire a consultant to perform this work. Arletta Place, Dr. Gunn's Assistant, will be contacting you to set up a mutually agreeable date/time for the call.

I have already spoken to Jonathan Garoutte (MDHSS) regarding this work and he has graciously offered some suggestions and assistance. I anticipate a mutually beneficial project for all of us, but we do need to work out the details rather quickly.

I await your partnership in this endeavor.

Mike
